

**Swedish Research School in Architecture**

## Welcome to ResArc

ResArc, the new Swedish PhD programme in architecture, aims at creating providing the best possible study environment for PhD students in the area of architectural research and thereby securing a lasting research education of the highest international quality. ResArc aims at fostering a learning culture that encourages experimental research approaches as well as international peer-reviewed publishing. ResArc is developing pedagogical strategies to ensure that our courses and other activities meet up to high educational standard.

### *Courses and other activities*

ResArc arrange courses, seminars, symposia and other pedagogical activities with content and formats accustomed to architecture research, including contemporary approaches to the study of philosophy of science, theoretical frameworks and methodology. The first ResArc course, Tendencies, will have its first course activity during the ResArc Kick Off on February 9-10, 2012.

### *How to apply*

Doctoral students within the field of architecture are welcome to apply for admission to ResArc. PhD students apply through their departments. Applications need to be made on the following electronic form. Directors of Research Studies at the applicant's home department compile applications from interested candidates and forward those to the ResArc Directory at: [resarc@arkitektur.lth.se](mailto:resarc@arkitektur.lth.se), who decides on admission. Applications from PhD students at the schools of architecture in ResArc (KTH, LTH, UMU and CTH) will be prioritized.

### *What's in it?*

PhD students admitted to ResArc will receive financial coverage (accommodation, meals and travel) for their participation in ResArc activities. ResArc PhD students also have priority for ResArc courses and other activities with limited numbers of participants. Admitted PhD students will be presented at ResArc website with project description, photo and publications. PhD students can apply for and take part in ResArc activities (courses, seminars etc) without being admitted to the research school. For these students, accommodation and meals at ResArc activities will be paid for by ResArc. Travel expenses will have to be covered by their home departments.

Very welcome with your application!
